SPECIAL PERMITS

PART 0 8-000 GENERAL PROVISIONS

8-001 Purpose and Intent

There are certain uses, like those regulated by special exception, which, by their nature, can have an undue impact upon or be incompatible with other uses of land. These uses as described may be allowed to locate within given designated zoning districts under the controls, limitations, and regulations of a special permit.

The BZA may approve a special permit under the provisions of this Article, when it is concluded that the proposed use complies with all specified standards and that such use will be compatible with existing or planned development in the general area. In addition, in approving a special permit, the BZA may stipulate such conditions and restrictions, including, but not limited to, those specifically contained herein, to ensure that the use will be compatible with the neighborhood in which it is proposed to be located. Where such cannot be accomplished, or it is determined that the use is not in accordance with all applicable standards of this Ordinance, the BZA shall deny the special permit.

8-002 Authorization

In consideration of an application filed with the Zoning Administrator, the BZA may authorize the establishment of those uses that are expressly listed as special permit uses in a particular zoning district; provided, however, that no such permit shall be required for a use allowed as a permitted use in such district, notwithstanding that such use may also be included in a use group available by special permit.

No special permit use shall be authorized unless said use complies with all of the applicable standards of this Article 8 and all other applicable requirements of this Ordinance.

Notwithstanding the foregoing, any special permit use permitted by this Article, when located within a floodplain shall also be approved by the Board as a special exception in accordance with the provisions of Sect. 9-606.

8-003 Limits on Authority

The BZA shall have no authority to vary, modify or waive any of the regulations or standards prescribed for any use for which a special permit is required; and any purported such modification, variance, or waiver shall ipso facto nullify the action of the BZA in approving any special permit hereunder. The BZA's discretion shall be limited to determinations with respect to the standards applying to the use covered by the application.

This provision shall not preclude any concurrent, but jurisdictionally separate, proceedings applying to the same property, in which application is made for a variance.

The jurisdiction of the BZA with respect to any use or purpose for which the BZA is authorized to approve special permits shall be confined to the consideration of the question of conformity to the provisions of this Ordinance. On an affirmative finding with respect to conformity, the BZA may approve the special permit applied for subject to whatever conditions and restrictions are deemed necessary under the provisions of Sect. 007 below.

8-004 Status of Special Permit Uses

FAIRFAX COUNTY ZONING ORDINANCE

1. Once a special permit is approved, any site plan, subdivision plat, Building Permit, Residential or Non-Residential Use Permit hereafter submitted for the development or use of the property in accordance with the special permit shall be in substantial conformance with the approved special permit, and no development or use shall be approved by any County official in the absence of such conformance.
2. Once established, the use shall be conducted in substantial conformance with the permit, any conditions or restrictions imposed by the BZA, and all other requirements of this Ordinance. Except as may be permitted under Paragraphs 3 and 4 below, no use shall be enlarged, expanded, increased in intensity or relocated and no condition of the special permit shall be modified unless an application is made and approved for an amendment to the special permit in accordance with Sect. 014 below or a new special permit is approved.
3. Notwithstanding the above, any modification to an approved and currently valid special permit to provide an accessibility improvement shall be permitted and shall not require approval of an amendment to the special permit or a new special permit.
4. Minor modifications to an approved special permit may be permitted when it is determined by the Zoning Administrator that such are in substantial conformance with the approved special permit and that such: are in response to issues of topography, drainage, underground utilities, structural safety, layout, design, vehicular circulation, or requirements of the Virginia Department of Transportation or Fairfax County; or are accessory uses; or are accessory structures or minor building additions as permitted by Par. 4A(6) or 4B(6) below.
 - A. For approved special permits for all uses, other than churches, chapels, temples, synagogues and other such places of worship (hereinafter places of worship) and places of worship with a child care center, nursery school or private school of general or special education, the modifications shall, in no event:
 - (1) Permit a more intensive use which shall include but not be limited to an expansion of the hours of operation or an increase in number of seats, students or employees from that approved pursuant to the special permit; or
 - (2) Result in an increased parking requirement, except for any additional parking which may be required for any building additions or modifications permitted under Par. 4A(6) below; or
 - (3) Permit uses other than those approved pursuant to the special permit, except that accessory uses in accordance with this paragraph may be permitted; or
 - (4) Reduce the effectiveness of approved transitional screening, buffering, landscaping or open space; or
 - (5) Permit changes to bulk, mass, orientation or location which adversely impact the relationship of the development or part thereof to adjacent property; or
 - (6) Include the addition of any building or additions to buildings except that accessory structures clearly subordinate to the use, and minor additions to

SPECIAL PERMITS

buildings may be permitted, provided that the sum total of all such structures or additions shall not exceed the following:

- (a) five (5) of the approved gross floor area or 500 square feet of gross floor area, whichever is less, when the total gross floor area shown on the approved special permit plat is less than 50,000 square feet; or
- (b) one (1) percent of the approved gross floor area when the total gross floor area shown on the approved special permit plat is 50,000 square feet or more; or
- (c) 250 square feet of gross floor area of accessory storage structure uses when the total gross floor area shown on the approved special permit plat is 10,000 square feet or less; and
- (d) the maximum permitted FAR for the zoning district in which located.

B. For approved special permits for places of worship and places of worship with a child care center, nursery school or private school of general or special education, the modifications shall, in no event:

- (1) Permit an expansion of the hours of operation from that approved pursuant to the special permit; or
- (2) Permit an increase in the number of seats, parking spaces or students, if applicable, which exceeds more than ten (10) percent of the amount approved pursuant to the special permit; or
- (3) Permit uses other than those approved pursuant to the special permit, except that accessory uses in accordance with this paragraph may be permitted; or
- (4) Reduce the effectiveness of approved transitional screening, buffering, and landscaping or open space; or
- (5) Permit changes to bulk, mass, orientation or location which adversely impact the relationship of the development or part thereof to adjacent property; or
- (6) Include the addition of any building or additions to buildings except that accessory structures clearly subordinate to the use, and minor additions to buildings may be permitted, provided that:
 - (a) the sum total of all such structures or additions shall not exceed the greater of 500 square feet of gross floor area, or five (5) percent of the approved gross floor area up to a maximum of 2500 square feet of gross floor area; and
 - (b) the maximum permitted FAR for the zoning district shall not be exceeded.

FAIRFAX COUNTY ZONING ORDINANCE

- C. For all approved special permit uses, any request for an addition shall require the provision of written notice by the requester in accordance with the following:
- (1) the notice shall include the letter of request with all attachments as submitted to the Zoning Administrator, a statement that the request has been submitted, and where to call for additional information; and
 - (2) the notice shall be sent to the last known address of the owners, as shown in the real estate assessment files of the Department of Tax Administration, of all property abutting and across the street from the site, or portion thereof, which is the subject of the request, and shall be delivered by hand or sent by certified mail, return receipt requested.

The request for an addition submitted to the Zoning Administrator shall include: an affidavit from the requester affirming that the required notice has been provided in accordance with the above; the date that the notice was delivered or sent; the names and addresses of all persons notified; and the Tax Map references for all parcels notified. No request for an addition shall be considered by the Zoning Administrator unless the affidavit has been provided in accordance with this paragraph.

When it is determined by the Zoning Administrator that a modification is not in substantial conformance with the approved special permit, such modification shall require the approval of an amendment to the special permit in accordance with Sect. 014 below or a new special permit.

8-005 Establishment of Groups

For purposes of applying specific conditions upon certain types of special permit uses, and for allowing special permit uses to be established only in those zoning districts which are appropriate areas for such uses, all special permit uses are divided into groups of associated or related uses, hereinafter set forth in this Article 8.

8-006 General Standards

In addition to the specific standards set forth hereinafter with regard to particular special permit uses, all special permit uses shall satisfy the following general standards:

1. The proposed use at the specified location shall be in harmony with the adopted comprehensive plan.
2. The proposed use shall be in harmony with the general purpose and intent of the applicable zoning district regulations.
3. The proposed use shall be such that it will be harmonious with and will not adversely affect the use or development of neighboring properties in accordance with the applicable zoning district regulations and the adopted comprehensive plan. The location, size and height of buildings, structures, walls and fences, and the nature and extent of screening, buffering and landscaping shall be such that the use will not hinder or discourage the appropriate

SPECIAL PERMITS

development and use of adjacent or nearby land and/or buildings or impair the value thereof.

4. The proposed use shall be such that pedestrian and vehicular traffic associated with such use will not be hazardous or conflict with the existing and anticipated traffic in the neighborhood.
5. In addition to the standards which may be set forth in this Article for a particular group or use, the BZA shall require landscaping and screening in accordance with the provisions of Article 13.
6. Open space shall be provided in an amount equivalent to that specified for the zoning district in which the proposed use is located.
7. Adequate utility, drainage, parking, loading and other necessary facilities to serve the proposed use shall be provided. Parking and loading requirements shall be in accordance with the provisions of Article 11.
8. Signs shall be regulated by the provisions of Article 12; however, the BZA, under the authority presented in Sect. 007 below, may impose more strict requirements for a given use than those set forth in this Ordinance.

8-007 Conditions and Restrictions

In addition to those standards set forth in this Article, the BZA, in approving a special permit, may impose such conditions and restrictions upon the proposed use as it may deem necessary in the public interest to secure compliance with the provisions of this Ordinance and to protect the viability of the implementation of the adopted comprehensive plan. Such conditions or restrictions may include but need not be limited to a time limitation on the length of the permit in accordance with the provisions of Sect. 008 below and may require the posting of a guarantee or bond in a reasonable amount by the applicant.

8-008 Time Limitations, Extensions, Renewals

In addition to the time limits set forth in this Article, the BZA may require, as a condition to the approval of any special permit, that it shall be approved for a specified period of time; that it may be subsequently extended for a designated period by the Zoning Administrator; or that it may be periodically renewed by the BZA. The procedure of granting an extension or renewal shall be as presented in Sections 012 and 014 below.

Unless otherwise stipulated by the BZA, a specified period of time shall commence on the date of approval of a special permit.

8-009 Application for a Special Permit

1. An application for a special permit may be made by any property owner, lessee, contract purchaser, official, department, board or bureau of any government or their agent.
2. The application shall be filed with the Zoning Administrator on forms provided by the County. The application shall be complete, and shall be accompanied by those submission

5. The concurring vote of four (4) members of the BZA shall be required to approve a special permit and the BZA shall render a decision on all applications within ninety (90) days from the date of acceptance of the application, unless an extended period is mutually agreed to by the applicant and the BZA, or unless an applicant refuses or neglects to prosecute an application in accordance with the provisions of this Ordinance.

8-010 Application for a Temporary Special Permit

The application for a temporary use as permitted under Group 8 shall be on forms provided by the County, and shall be filed with the Zoning Administrator. 8-014 Amendment of a Special Permit

1. Except as provided for in Paragraphs 3 and 4 of Sect. 004 above, an amendment is a request for any enlargement, expansion, increase in intensity, relocation, reduction in land area, modification of any condition of a previously approved and currently valid special permit use or renewal of a currently valid special permit for a new period of time. An amendment application may be filed on a portion of the property subject to a currently valid special permit, upon a determination by the Zoning Administrator that the amendment (a) would not adversely affect the use of the property subject to the special permit but not incorporated into the amendment application, (b) would not inhibit, adversely affect, or preclude in any manner the fulfillment of the special permit conditions applicable to the area not incorporated into the amendment application, and (c) would not increase the overall approved density/intensity for the development. Previously approved special permit conditions which are not subject to the amendment request shall remain in full force and effect. Except as qualified below, the procedure for an amendment of a special permit shall be the same as specified in this Part for the approval of the original permit, to include the imposition of conditions and restrictions, except the Zoning Administrator may waive any submission requirement if such requirement is deemed not necessary for an adequate review of the application.

SPECIAL PERMITS

An application to renew a special permit use to allow a new period of time for the operation of the use shall be filed prior to the expiration date of the permit and the permit shall remain valid until the application is acted upon by the BZA. However, the BZA shall not approve a renewal application for a use which is no longer allowed as a special permit use in the zoning district in which located. Failure to apply for renewal in a timely manner shall cause the special permit to expire without notice on the expiration date.

In reviewing a renewal application, the Board shall review the applicant's record of compliance with those conditions and restrictions previously imposed and determine if the use still satisfies the provisions of this Ordinance. Upon a favorable finding, the Board may approve the application. If it is determined that the use is not in accordance with all applicable provisions of this Ordinance, the Board may, depending on the nature of the noncompliance, deny the application or for an application solely requesting a new period of time, may impose such conditions and restrictions to ensure that the use will be harmonious with and will not adversely affect the use or development of neighboring properties. No alteration of a structure shall be required if such structure was in conformance with the provisions of this Ordinance, the Building Code and other applicable regulations at the time the special exception was first approved, unless the Board deems such alteration necessary to protect the public health, safety or welfare.

2. For an existing and currently valid special permit use which use is no longer allowed by special permit or special exception in the zoning district in which located, the BZA, upon receipt of an application, may review and approve an amendment to said permit, provided such amendment does not permit the use to be enlarged, expanded, increased in intensity, relocated or continued beyond any time limitation specified in the existing permit.

8-015 Expiration of a Special Permit

1. Whenever a special permit is approved by the BZA, the use authorized thereby shall be established or any construction authorized shall be commenced and diligently prosecuted within such time as the BZA may have specified, or, if no such time has been specified, then within thirty (30) months from the approval date of such permit, unless additional time is approved by the BZA in accordance with Par. 2 below.
2. The BZA may approve a request for additional time, but only in accordance with all of the following:
 - A. A request is filed in writing with the Zoning Administrator prior to the expiration date. Such request shall specify the basis for and amount of additional time requested and shall include an explanation of why the use has not been established or construction commenced and diligently prosecuted in accordance with the time specified in the approval of the special permit. Such explanation may include the occurrence of conditions unforeseen at the time of special permit approval.
 - B. It is determined by the BZA that the use is in accordance with all applicable provisions of the Zoning Ordinance, unless the Board of Supervisors has specifically provided that an amendment adopted subsequent to the approval of the special permit is not applicable to the request for additional time, and that approval of additional time is consistent with the public interest.

FAIRFAX COUNTY ZONING ORDINANCE

3. If a request is timely filed, the permit shall remain valid until the request for additional time is acted upon by the BZA; however, during this period, the use shall not be established nor shall construction commence.
4. If the use or construction has not commenced in accordance with the above provisions, then the special permit shall automatically expire without notice.

8-016

Termination or Revocation of a Special Permit

1. Unless a time limit is specified for a special permit, the same shall be valid for an indefinite period of time, except that if the use or activity should cease for any reason for a continuous period of two (2) years or more, the special permit shall automatically terminate without notice. The approval of a new special permit shall be required prior to any subsequent reinstatement of the use.

2. A special permit shall be revocable by the BZA at any time because of the failure of the owner or operator of the use covered by the special permit to comply with the terms or conditions of the special permit.

Before revoking any special permit, the BZA shall conduct a public hearing and provide notice in accordance with the provisions of Sect. 18-110. The BZA or its agent shall give the permittee at least twenty (20) days advance written notice of the hearing date either by certified mail, return receipt requested, or by hand delivery, and the notice shall contain:

- A. The grounds for the proposed revocation of the special permit; and
- B. The date, time and place of the public hearing.

The above provisions shall remain applicable to a use covered by a special permit, which use has, subsequent to the approval of the special permit, been reclassified to a special exception use, until a special exception is approved for the use due to an enlargement, expansion, increase in intensity, relocation or modification of a special permit condition and then the revocation provisions of Sect. 9-016 shall apply.

3. The foregoing provisions shall not be deemed to preclude the use of any other remedy prescribed by law or by this Ordinance with respect to violations of the provisions of this Ordinance.
